Mark - If you can wake up and I'm not
 sick, we can go to the beach in the summer.
 Once ten gets his can you'll have to learn the
 science of B.A.'s. It's really easy. In the
 summer we can feast on doggy ice cream.
 or at least I can if you work. (I hope). Also
 we should plan something for the end of school.

I've always thought you were

When you're alone at night
and the old memories you call back
to help you do the things
that will put you to sleep
don't work any more
and even the aphrodisiac of magazines
doesn't help
and there is no place to go, no one to call,
try thinking about the sun.

The way it catches in the trees sometimes.
The way it follows you while riding in a car.
The way it plays in the hair of strangers on the beach.
The way it climbs hills with you and pushes you from bed
in morning.

Think about the time of noon
when everybody's just a little crazy.

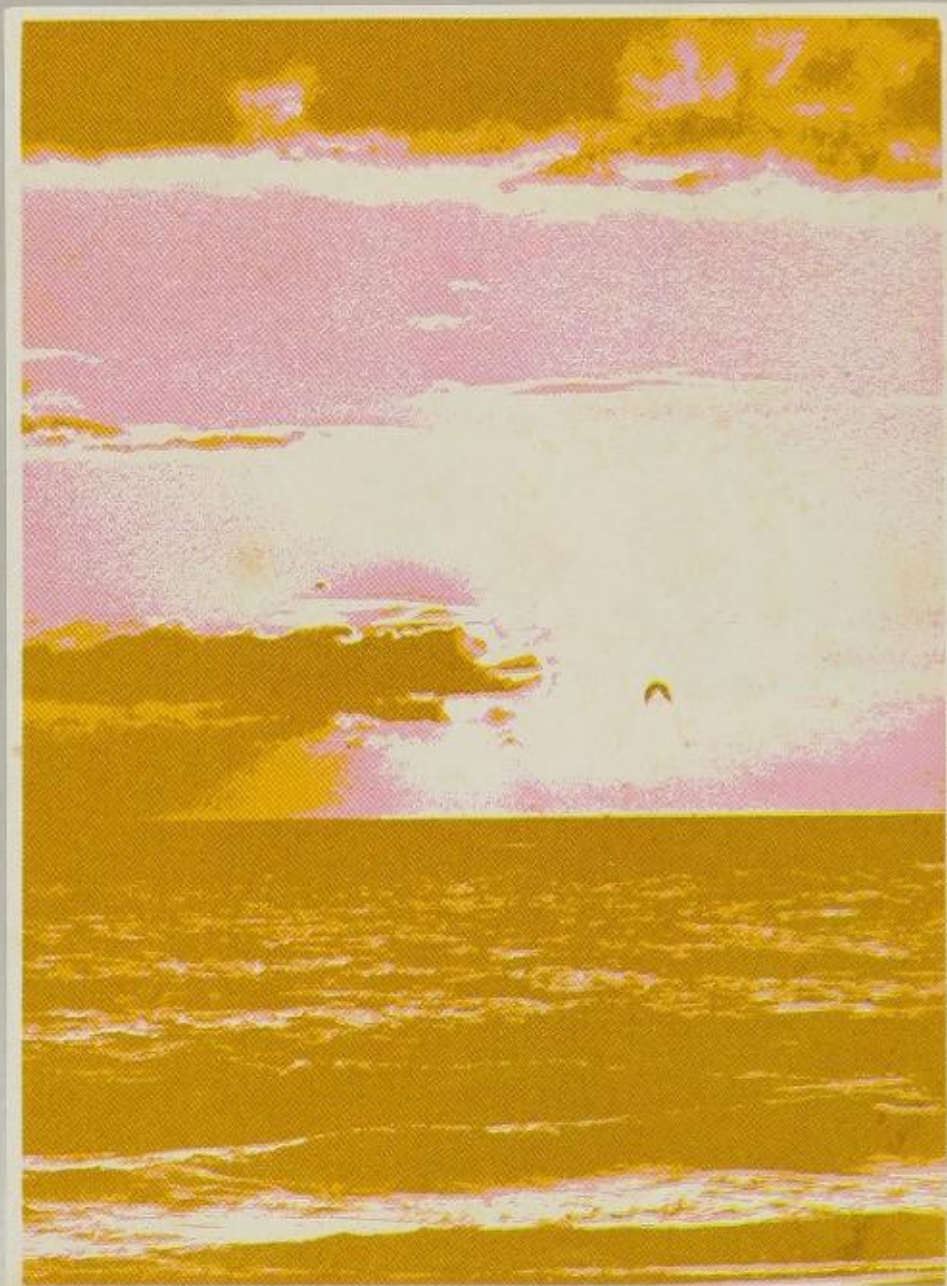

Remember that the cliffs are white and steep
and you'll grow tired climbing them
tired enough to sleep.

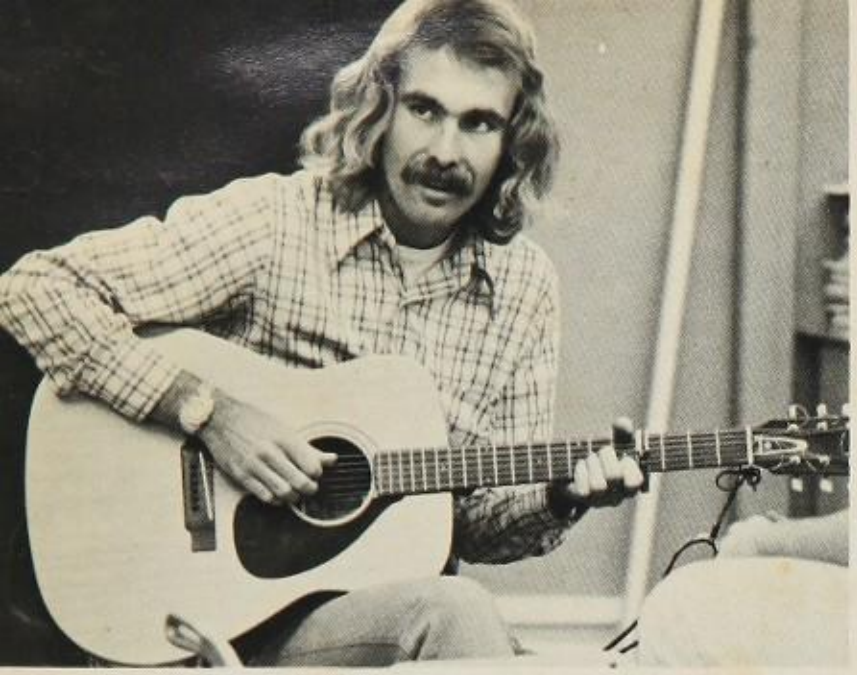

What you're thinking about
isn't really the cause of perspiration on your forehead
it's only the sun.

It's just the time of noon.

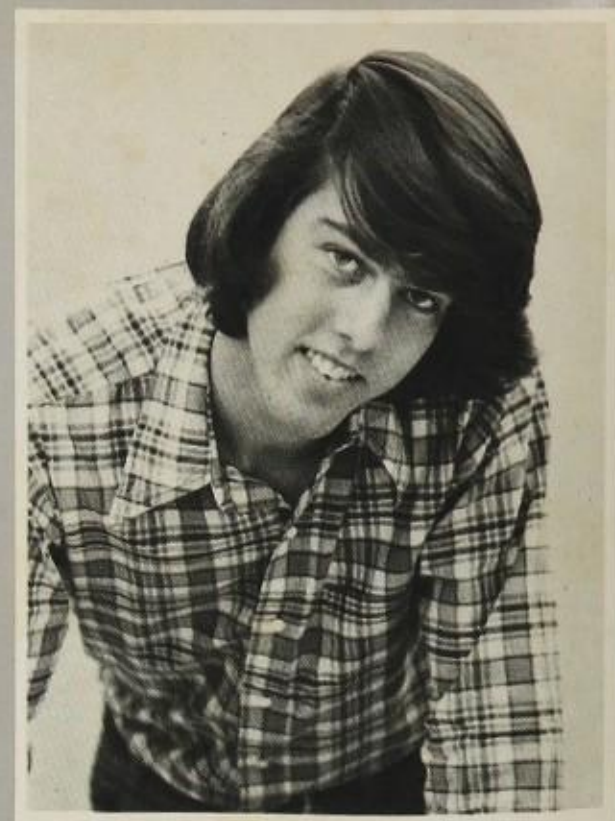

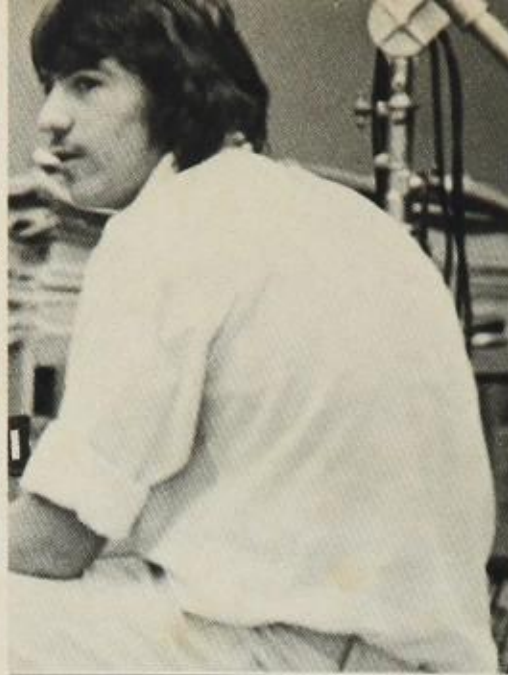

MARK,
HAVE A good summer.
YOU HAVE GOT TO
go on some TRIPS
SO WE CAN ~~catch~~

I'd like to thank everybody who helped me to form my section and complete the yearbook. I know I can't mention everyone in this small space, but I'm going to try. Maki, Darrell, Cindy, Nicki, Kathy, Mike, Debbie, Jack, Glenn, thanks a lot!

I'd especially like to thank Kevin (Rag, Rag) Smith for all the pictures he gave me, and to Allan (Burrito) Catanzaro for all the printing that he did.

Above all, I'd like to thank Rob Doucette for making my senior year my best.

through this world
but once.
Any good things, therefore,
that I can do or any kindness
I can show to any fellow human
being let me do it now.
Let me not defer,

For I shall never pass

Too swift

Too long

Too short

But for those who love . . .

CAPTAIN ZOOM-ZOOM!!!

I'd like to thank the following people for really sticking it out in the long run; Kathy Bell, Allan Catanzaro, Nicki Lotwin, Jack Davis, Mike Beacom, Darrell Riley and Dan Cahn. The person who I'd like to thank the most is, who else, Robert Doucette, for taking a lot of his own time to get this book together. I want to give my gratitude to Grant Shoemaker and Lisa Strassburger for making me laugh all year long and to Krista Gardner for listening to all the hassles and problems of the whole staff for endless days. And to Mary Prigian, I thank for being herself and Cindy Perry for infinite chocolate chip cookies. We tried to get as many people as possible in all the pictures so if we missed you, well we tried. Congratulations to the graduating class of 1976 and may we all meet someday on the way back home.

Kevin Smith

P.S. Who's a space case???

What can I say that Kevin hasn't already — This year was an experience — one that I'll remember for a long time! Thanx to everybody who helped make this section possible, you know who you are!! And Kevin, what can I say, you're unreal, thanx for sticking it out . . . I love you all, the best of luck always.

..... Hi Nick, Hi Rick — Guess Who???!

There's nothing you can
 know that isn't Known,
 Nothing you can see that
 isn't Shown,
 Nothing you can be that
 isn't where you're meant
 to be, it's easy.

Faculty

You've been so long at the beach
you even taste like the sun
but the sun is much too warm
even for love.
Rod McKuen

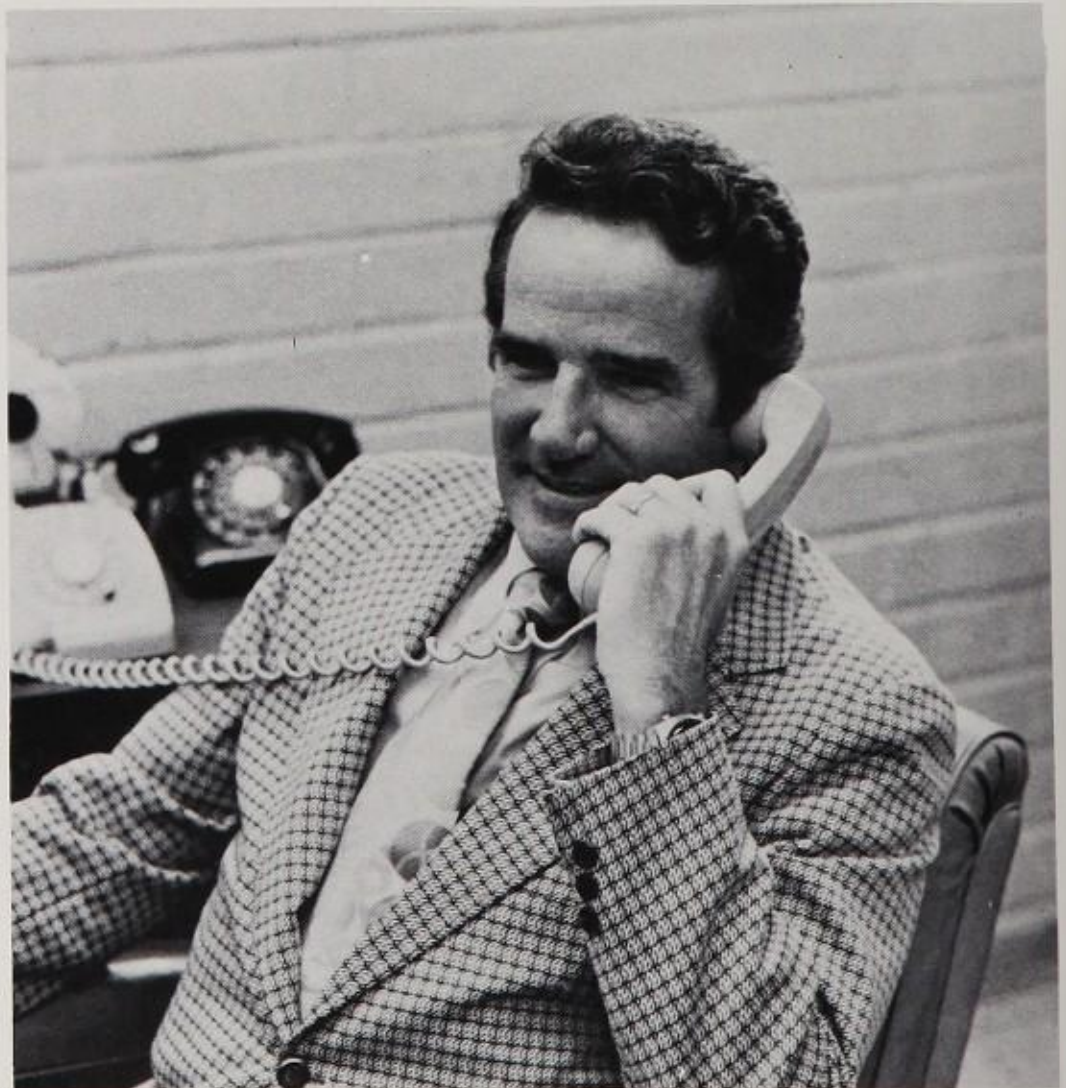

Principal

In this Bicentennial year, it is our hope that members of the senior class have had the opportunity to develop a deeper appreciation for the greatest country in the history of civilization. Due to the tremendous impact of the mass media, especially television, young people today are exposed to all the problems of the world and those within our country almost immediately. Since negative news seems to receive most of the attention, it is easy to get the impression that everything is wrong with America and the world when, in reality, there is a great deal right about our country! While we are coping with the problems of a modern complex society, it is important that we not lose sight of the tremendous individual and group contributions made during the past two hundred years. I challenge each and every one of you to assume your role in helping to solve these problems because the opportunity for young people to become involved has never been greater.

This outstanding senior class has added immeasurably to the history of Palisades High School. Congratulations again for making this another banner year, and the very best of luck to each and every one of you in your future endeavors.

James A. Mercer
Principal

In this year of the Bicentennial celebration, your graduation is especially symbolic of the renewal of the "Spirit of '76." Your spirit of competitiveness, of freedom, and of honesty will continue throughout your life and guide your actions toward the production of a better nation for everyone.

In reviewing the past year's achievements of this graduating class, collectively and individually, one cannot help but note the tremendous growth shown. Projecting this success into your future, it is clear that you will meet the challenge of the next hundred years and place yourselves in leadership roles in the creation of a better world.

Merle W. Power
Assistant Principal

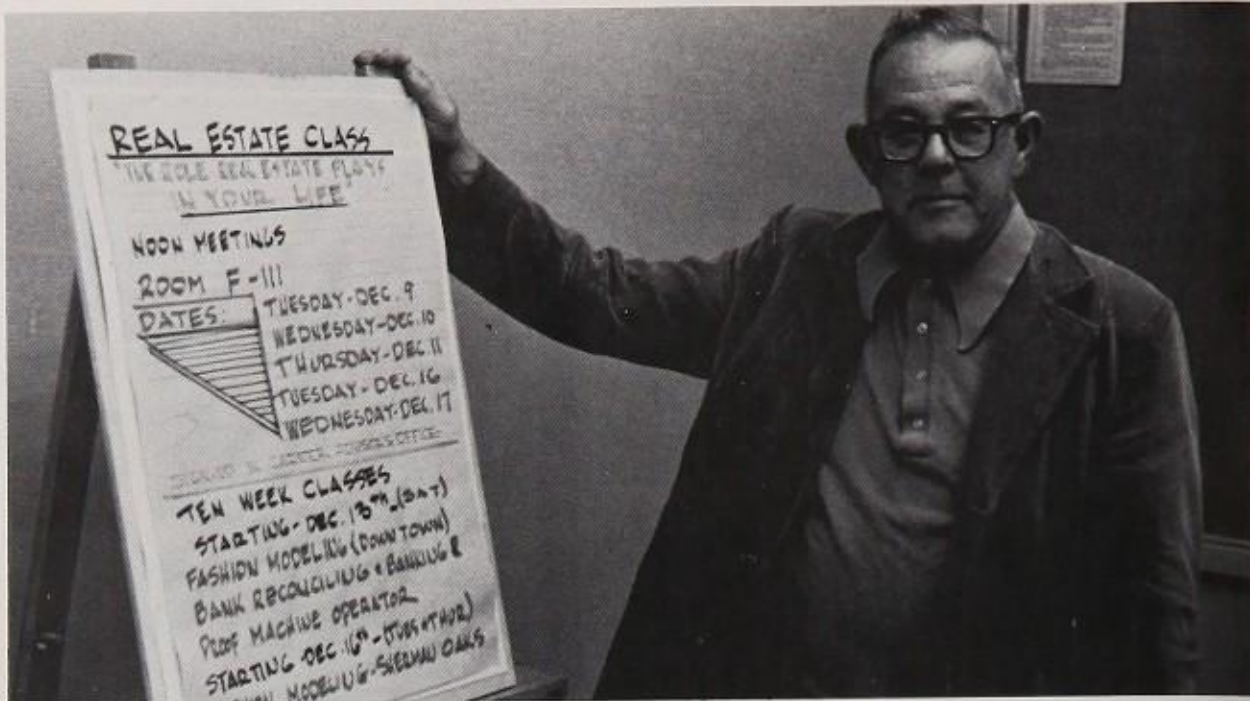

Congratulations to the Class of '76. In the spirit of our forefathers, we wish you well as you forge ahead. For most of you this is only a stepping stone to higher educational and cultural pursuits. For some of you, this will mark the culmination of your formal education. Regardless of your present plans for the future, may the challenge of learning always be important to you and may you always recognize that this universe holds much that makes our lives rich.

I wish for each of you a happy and prosperous future and a fond memory of your high school years.

Sincerely,

PALISADES CONTINUATION CLASSES

Sometimes a Pali High student finds he is in trouble with his classes, becomes truant or tardy from some or all of them, his grades fall, his parents become distressed — the pressures mount. What help is available? The student needs some breathing space and a chance to succeed. Continuation classes to the rescue!

These classes are for students between 16 and 18 years of age who need help in salvaging credits, egos and confidence before dropping out of school altogether. How does it work? The enrollees are given a shortened school day and are tutored in 2 or 3 subjects by instructors specially trained for this task.

First, emphasis is placed on steady improvement in selected subject matter to help build confidence. Secondly, there is frequent communication between the teachers and parents regarding attendance, attitude and progress.

The first two Continuation Classes at Palisades High started in temporary facilities in DIII. This year, there are plans for the building of an off-campus site for the Continuation School across Temescal Cyn. Rd. Staff and facilities will be larger and will serve 4 times the number of students presently enrolled when completed.

Alternative School

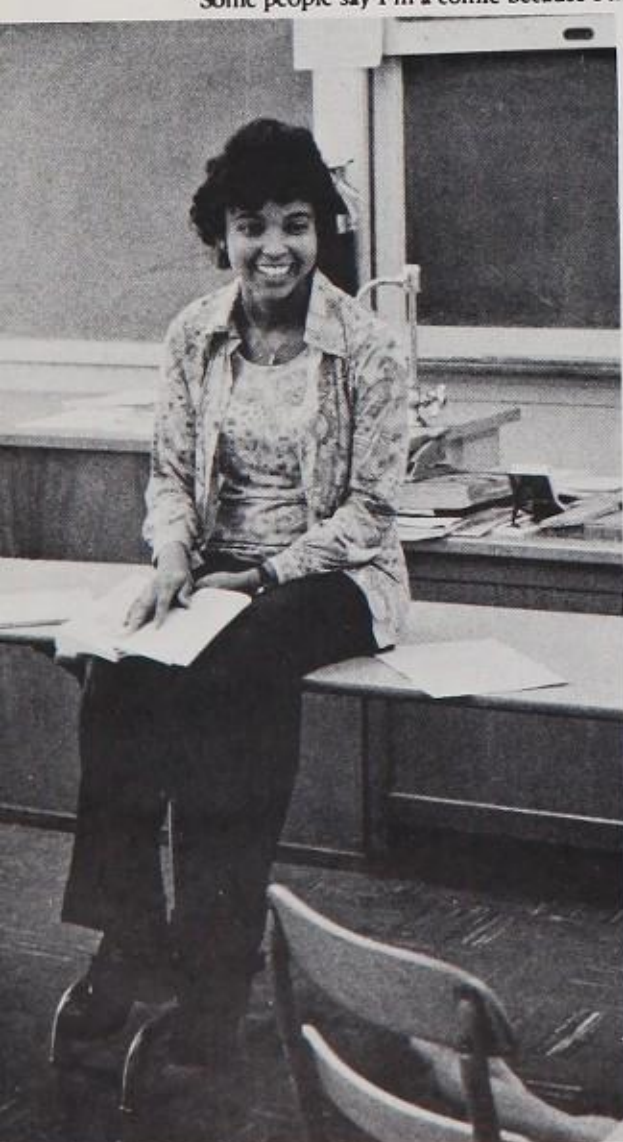

Mr. Daniel Chasman
"Some people say I'm a comic because I'm so liberal."

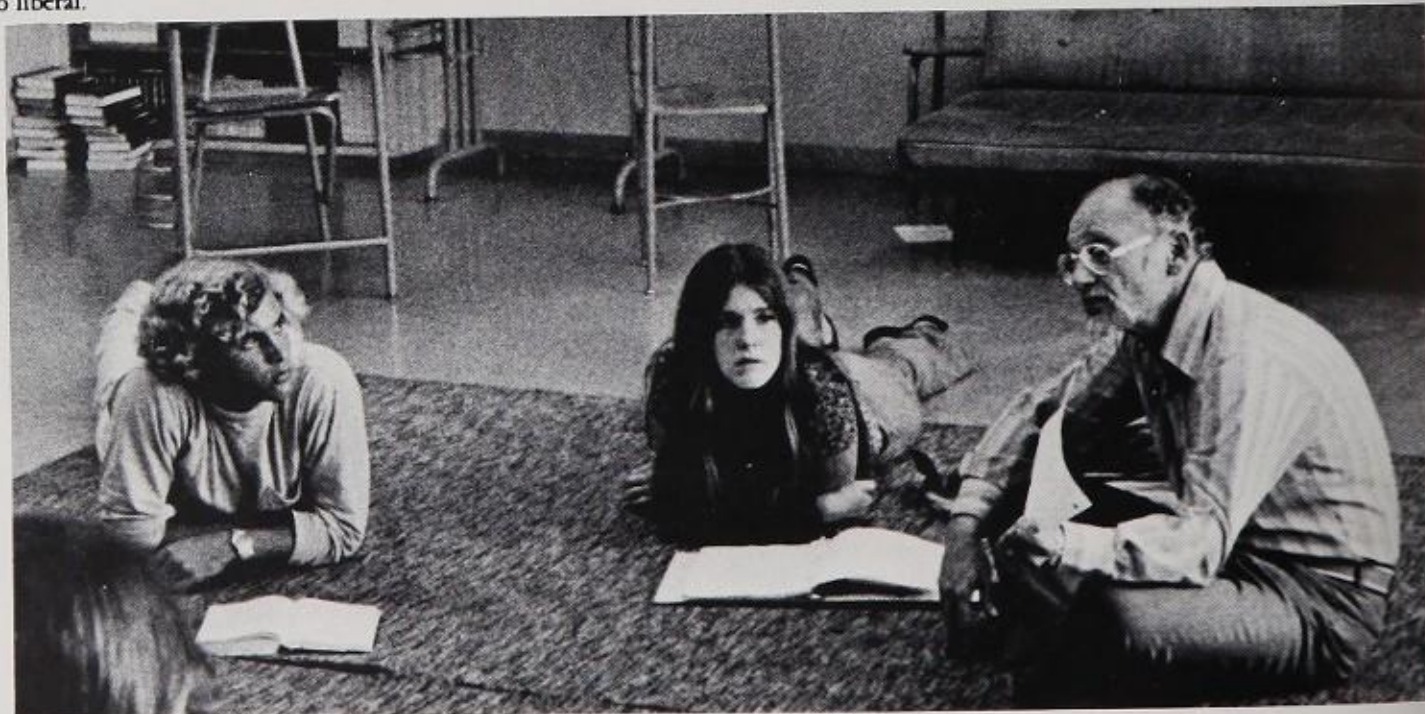

Mr. Arthur Thomas
"It's all relatively straight forward!"

PAS is an individual experience. You get out of it just as much as you put into it. You are totally responsible for all your actions and the consequences, also. PAS teaches you to respect yourself and others. It also teaches you to open your eyes and see all points of view. PAS helps you become a free-thinking individual.

Sue Fogal

Ms. Barbara Procello
"Tell Nathan to shut up!!"

The first word that comes to mind when I think about PAS is OPPORTUNITY. Alternative School has provided me with opportunities to expand any interest I have, as small as it may be. Whether the situation is Contract P.E., an independent study project, or a paper for a composition class, I have consistently (and I say that without hesitation) had the chance to make whatever it is meaningful to me. In other words, PAS has entwined academics and intellectualism with personal life situations. Alternative school has also shown me the absolute necessity of both student and teacher motivation. The students cannot learn without teachers' motivation, just as teachers cannot teach (and learn, too!) without the students' motivation. This is particularly significant to me because it attests to the fact that without care, concern, and motivation, individuals stagnate, both in and out of school. Again, it is evident to me that PAS has unified school with life. School does not necessarily have to be a separate entity.

Nina Cohen

Mrs. Martha Lightner
"Going on . . ."

PAS has helped me learn how to handle responsibility and how to handle freedom.

Anonymous

PAS: For once, I really wanted to go to school. I learned through my teachers, but especially through myself. In PAS I was given the freedom to learn and the motivation to want to. Thanks for keeping me in school, 'cause now it's over and it's been good. I love you all.

Dedication

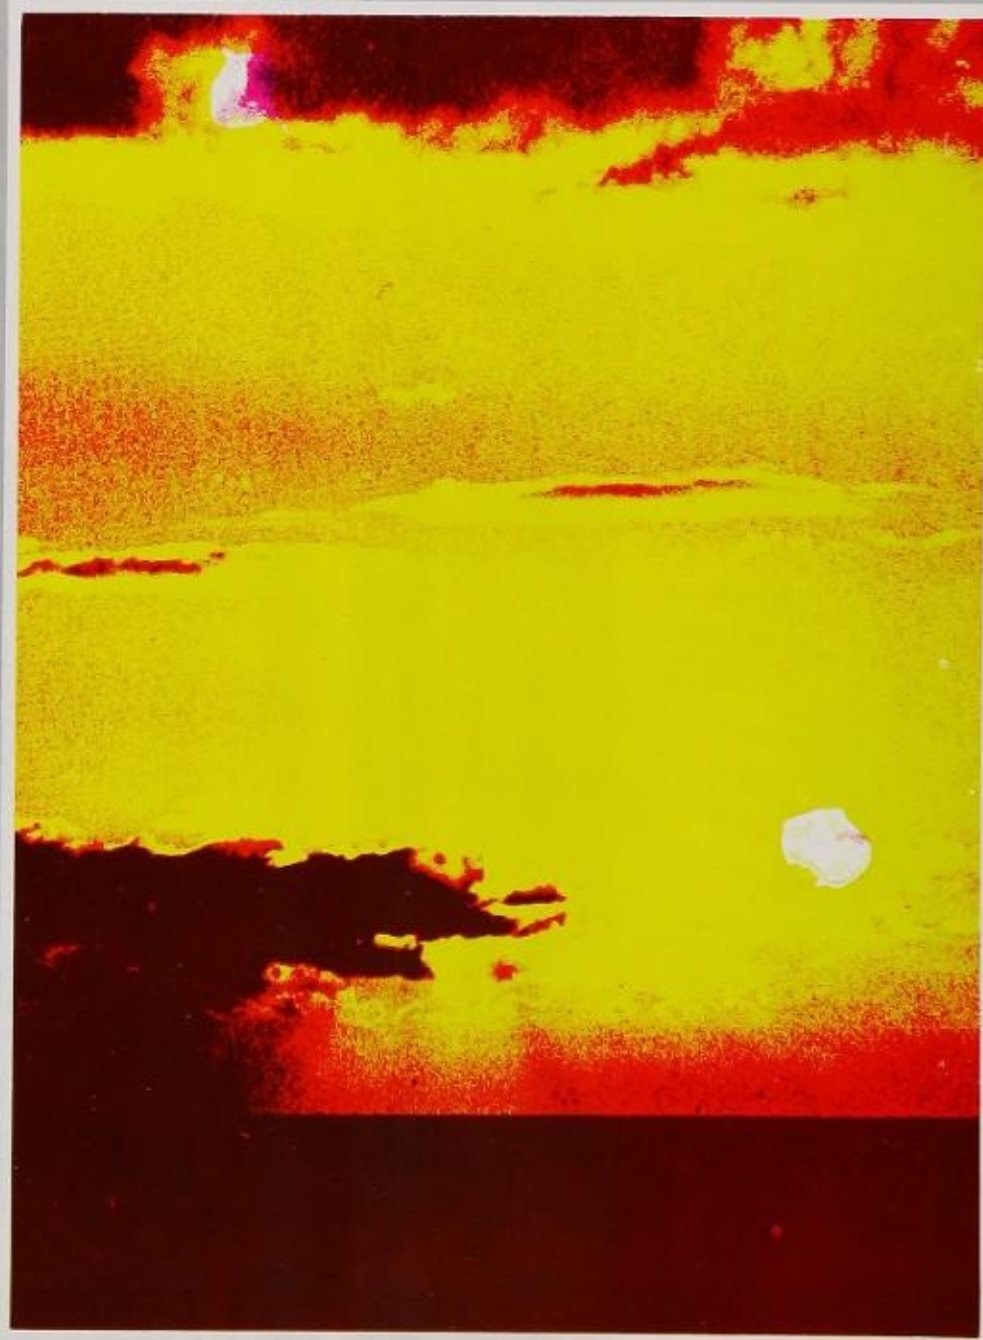

Roughly two million persons teach in America's public schools. Their daily work greatly affects the characters and emotions of today's young people. A particularly outstanding teacher at Palisades High School is Mr. Kenneth Kay, Chairman of the Math Department. Mr. Kay not only presents exceptional instruction, but also evokes respect and affection, diligent effort from his students, and compliance with classroom rules. He thinks a laugh here and there is good — in fact, necessary. His dry-humored punning and wild gestures stir excitement from his students, resulting in better class participation. But Mr. Kay's real success as a teacher stems from his fairness with students; he enforms his students exactly what is expected of them, and grades them accordingly. For this reason, the Surf Staff of 1976 dedicates this Year-book to Kenneth Kay, for his fifteen years of devoted teaching at Palisades High School.

The sun doesn't come out
So much anymore
As he once did
He's found other beaches
Upon which to lay . . .
